

Alice Fontaine
Actuarial Consultant
Interstate Insurance Product Regulation Commission

Alice Fontaine joined the Interstate Insurance Product Regulation Commission (IIPRC) as an Actuarial Consultant in 2008. The Actuarial Consultant's primary responsibility is to review actuarial memoranda submitted with product filings to the IIPRC for compliance with the actuarial requirements as established in the IIPRC Uniform Standards.

Prior to establishing Fontaine Consulting, LLC, Alice was a Consulting Actuary for ten years with a regional consulting firm. She had responsibility for product development, financial reporting and related regulatory compliance for several small insurers and fraternal in the Life & Health industry. Alice was also responsible for the actuarial component of financial and market conduct examinations for several state insurance departments, i.e. New York, Texas, Louisiana, Arizona and California.

Alice was employed at a life and health insurance company before becoming a consultant. During her ten years with the company, she worked in various departments including Group and Individual Life, Annuity and Health products, financial reporting, asset/liability management, and distribution compensation. Alice has experience with all aspects of life and health insurance, including pricing, rate increase filings and financial reporting.

Alice is a graduate of the University of Manitoba, Canada, with a Bachelor of Commerce in Actuarial Science. Alice has earned the FSA designation and is a member in good standing with the Canadian Institute of Actuaries (CIA), American Academy of Actuaries (AAA) and Conference of Consulting Actuaries (CCA). Alice is an active volunteer with the AAA and the regional Actuaries Club of the Southwest.
