# Adding Associated Filings to a Compact Filing & How to View Associated Filings

Filers who submit riders, endorsements, amendments, and/or applications separate from a policy or a contract are required to identify which forms will be used with which policies or contracts. Additionally, filers who submit forms that will replace previously approved Compact forms are required to identify as Associated Filings any filing(s) containing the replaced form(s). Section 103(d) of the [Operating Procedure for the Filing and Approval of Product Filings](#) requires that at “the time a Product Filing is made, the Product Filer shall identify whether the Product Filing will be used with a Commission Product Component previously approved by or pending with the Commission.” If the filing is a mix and match submission, the Statement of Intent is completed to provide the additional information for state-approved forms. Now there is a new enhancement for Compact filing associations – Associated Filings. Associated Filings is a feature that allows the industry user to add and view associated Compact-only filings via a simple hyperlink. The filing must be documented using the Associated Filings enhancement to satisfy the Submission Requirement. Once a filing has been associated to a previously submitted Compact filing there will be a “View Associated Filings” link in the upper right hand corner of the Filing at a Glance section in the previously submitted filing. Please note that this association is for Compact filings only and that completion of the Statement of Intent schedule is still required for mix and match submissions. States included on the filing will be able to view associated filings related to a Compact Filing.

## Getting Started

Industry Users submit the associated filings for Compact Filings by clicking on “View Associated Filings” link on the right of the page. The User will then click “Edit List”. Once in the edit mode, Associated Filings may be added by clicking “Add”.

**Interstate Insurance Compact**

Once the user has associated a filing the user has the ability to view it by clicking the link to the filing the user wishes to view. The associated filing links work in both directions; that is, if the user clicks a link in the original filing to view an associated filing, the original filing will then appear as an associated filing in the second filing so the user may return to the original filing with two clicks (open Associated Filings then click SERFF Tracking Number for the desired filing).

## Viewing Associated Filing for Reviewers

The Insurance Compact Reviewers and the State Users can view associated filings for Compact Filings. By clicking on the “View Associated Filings” link on the right of the page the user can view filings that are associated to the Compact Filing. The State User will be able to view the associated filings only if the state is included on the Compact Filing.

## Associated Filings

[CLOSE WINDOW](#)

SERFF Tracking #	Product Name	Date Submitted	SERFF Status
<a href="#">AAAL-129422075</a>	SINGLE PREMIUM IMMEDIATE ANNUITY CONTRACT	02/20/2014	Pending Industry Response
