

Interstate Insurance Product Regulation Commission Announces Focus Group Formation

The Interstate Insurance Product Regulation Commission (IIPRC) is actively forming a Focus Group and is seeking requests from persons interested in participating in this effort.

The Focus Group will provide feedback on product filing process issues, including filing under the numerous implemented Uniform Standards through the System for Electronic Rate and Form Filing (SERFF) and customer service interactions with the IIPRC Team. The Focus Group will also provide input on how to enhance communications to external parties on promoting use of the IIPRC's one-stop uniform filing platform.

The Focus Group is expected to meet via conference call and if necessary, webinar. The time commitment for participation in the Focus Group is expected to be 15 to 20 hours over the course of 4 to 6 months.

The Focus Group will consist of nine (9) members, to include at least four (4) representatives from companies who have paid their current IIPRC Annual Registration Fee and at least two (2) members who are consumer representatives.

If you are interested in participating in this Focus Group, please send an e-mail to Comments@insurancecompact.org by June 15, 2009 identifying your organization and providing an explanation of the reasons you are interested in participating in the Focus Group.

Thank you for your interest in the IIPRC!
