

IIPRC-A-02-G-TAXQUAL ADDITIONAL STANDARDS FOR FORMS USED TO PROVIDE TAX QUALIFIED PLAN PROVISIONS FOR GROUP ANNUITY CONTRACTS CHECKLIST

Effective Date: December 1, 2025

Scope: These standards apply to provisions that are required in group annuity contracts to comply with specified tax code requirements applicable to such contracts when they are intended to be issued as tax qualified plans under such specified tax code.

With respect to non-employer groups, approval of a group annuity contract and certificate by the Commission shall not be deemed as approval to use or issue the product to a non-employer group. A non-employer group must be approved or permitted by the Compacting State as required under the applicable state laws and procedures before a product filing approved by the Commission pursuant to the applicable group Uniform Standards may be issued to a non-employer group.

The tax qualified plan provisions may be built into the annuity contract or be added to such contract by rider, endorsement or amendment. The term "form" will be used in these standards to refer to the provisions that are either built into the contract or added by rider, endorsement or amendment, unless otherwise specified.

The references to "contract" do not preclude Fraternal Benefit Societies from substituting "certificate" in their forms.

Mix and Match: These standards are available to be used in combination with State Product Components as described in Section 111(b) of the Operating Procedure for the Filing and Approval of Product Filings.

Self-Certification: These standards are not available to be filed on a self-certification basis in accordance with the Rule for the Self-Certification of Products Filed with the Interstate Insurance Product Regulation Commission.
