The Committee recommends these uniform standards be available for Mix and Match to be used in combination with State Product Components as described in §111 of the IIPRC Operating Procedure for the Filing and Approval of Product Filings. The PSC also recommends that filings submitted under these Uniform Standards continue to be subject to prior review and approval and not self-certification.

The Product Standards Committee (PSC) developed amended drafts of the nine group term life standards and held a public call on October 17, 2023. The PSC received comments from the American Council of Life Insurers and New York Life Insurance Company. The PSC developed amended drafts for the ten group whole life insurance standards and held a public call on April 9, 2024. The PSC received comments from New York Life Insurance Company and Missouri. The PSC made edits based on the comments received. A summary of the changes is attached to this memo.

Given the extensive, transparent, and documented drafting process preceding these recommendations, the PSC suggests that any additional comments or concerns about these recommended Uniform Standards be raised, considered, and discussed by all members and interested parties during the Management Committee’s formal rulemaking process.

The PSC is available to respond to any questions or requests for information to assist the Management Committee.
