Subject: Group Term Life Insurance Policy and Certificate Standards for Employer Groups

Oregon recommends revision to Section 4, Policy and Certificate Provisions, U. Prohibited Exclusions. All other Interstate Insurance Product Regulation Commission (IIPRC) insurance policy and certificate standards contain a list of allowed exclusions rather than listing prohibited exclusions. By listing the prohibited exclusions, it appears that any exclusion not listed may be allowed. This also raises the question as to whether IIPRC would have discretion in evaluating whether exclusions not listed are permissible, or if all exclusions not specifically prohibited are considered acceptable.
