**INDIVIDUAL DISABILITY INCOME INSURANCE APPLICATION STANDARDS
AS APPLICABLE TO THE FOLLOWING PRODUCTS:**

- **DISABILITY INCOME PLANS**
- **BUY-SELL PLANS**
- **KEY PERSON PLANS**
- **BUSINESS OVERHEAD EXPENSE PLNS**

Scope: The *Individual Disability Income Insurance Application Standards* are intended to apply to paper, telephonic or electronic applications for coverage provided by insurance policy forms for disability income plans, buy-sell plans, key person plans and business overhead expense plans that are individually underwritten, including such plans that are marketed through employer and association sponsored groups (“multi-life” plans), as applicable. These standards are intended to apply to new business applications as well as applications used to request changes to existing policies.

The company may submit one multi-purpose application to accommodate new business and all policy changes (conversion, reinstatement, suspension of coverage while in military service, exercise of guaranteed insurability option, plan changes, risk class improvements, addition of benefit feature, changes to existing benefit feature, etc.), submit separate applications for each purpose, or submit an application with any combination of purposes (new business and reinstatement only, all policy changes only, etc.).

Mix and Match: These standards are available to be used in combination with the following State Product Components: a policy form, rider, amendment or endorsement for disability income plans, buy-sell plans, key-person plans and business overhead expense plans, and as provided in Section 111(b) of the *Operating Procedure for the Filing and Approval of Product Filings*.

Self-Certification: These standards are not available to be filed using the *Rule for the Self-Certification of Product Components Filed with the Interstate Insurance Product Regulation Commission*.

As used in these standards the following definitions apply:

“Application” means any form used to apply for disability income insurance whether or not the form is attached to the policy at issue. The application shall be filed for approval.

“Disability income” means disability income plans, buy-sell plans, key person plans and business overhead expense plans that are individually underwritten, including such plans that are marketed through employer and association sponsored groups (“multi-life” plans), as applicable.

“Signed or signature” means any symbol or method executed or adopted by a person with the present intention to authenticate a record, and which is on or transmitted by paper, electronic or telephonic media, and which is consistent with applicable law.

“Written or writing” means a record which is on or transmitted by paper, electronic or telephonic media, and which is consistent with applicable law.

Drafting Note 1: Any reference to “policy” in these standards shall include a rider, endorsement or amendment used to provide disability insurance. “Policy” shall not include a group policy or a group certificate because these standards only apply to individual forms.

Drafting Note 2: The references to “policy” or “plan” do not preclude Fraternal Benefit Societies from substituting “certificate” in their forms.

The following measuring method shall be used in determining the Flesch score:

- (1) For policy forms containing 10,000 words or less of text, the entire form shall be analyzed. For policy forms containing more than 10,000 words, the readability of two, 200-word samples per page may be analyzed instead of the entire form. The sample shall be separated by at least 20 printed lines.
- (2) The number of words and sentences in the text shall be counted and the total number of words divided by the total number of sentences. The figure obtained shall be multiplied by a factor of 1.015.

Appendix B **Fraternal Benefit Societies**

Fraternal Benefit Societies (“fraternals”) are subject to separate codes in all jurisdictions due to their unique structure, operations and legal obligations. The Drafting Notes included at the ends of the **AGREEMENTS** standards, the new section entitled **ADDITIONAL STANDARDS FOR FRATERNAL BENEFITS SOCIETIES, AND Appendix B** are included in the standards to allow fraternals to experience the benefits of participating in the single point of filing and review process that the Interstate Insurance Product Regulation Commission offers, without jeopardizing their ability to meet their unique obligations and to operate as required or permitted by law.

By law, a fraternal is defined by five basic elements:

1. one without capitol stock;
2. one conducted solely for the benefit of its members and their beneficiaries by providing life, health and annuity benefits and by operating one or more social, educational charitable patriotic or religious purposes for the benefit of members and others;
3. one that is a benevolent and charitable institution and not for profit;
4. one operated on a lodge system that may carry out charitable and other activities; and
5. one that has a representative form of government with a governing body and direct election of its members

The laws governing fraternals impact the standards in several ways. Fraternals are required by law to issue insurance contracts that incorporate the laws of Society and the application for membership. Thus, the contract must consist not only of the policy or certificate issued, and the application for insurance but also the application for membership and the articles and bylaws. Further, the laws governing fraternals require or permit that the articles and bylaws address the structure of lodges, membership, requirements, form of governance, grievance procedures, and eligible beneficiaries. Any amendments to the articles or bylaws made after issuance of a certificate must be applied consistently to all members retroactively. However, no amendment shall eliminate or reduce contractual benefits.

By law, fraternals are membership organizations. Because of this, the law refers to the insurance forms issued to members of fraternal as “certificates” or “certificates of membership and insurance”. Further, due to the membership requirements, fraternal certificates often include a provision stating that the insured and/or owner is a member and that the form that has been issued to evidence coverage is a certificate of membership and insurance. In addition, fraternal certificates may include a Maintenance of Solvency provision setting forth the legal rights and obligations in the case of a fraternal’s financial impairment.
