

## **Notice of Deadline for 2022 Uniform Standards Annual Identification Prioritization Process**

In fulfilling a strategic plan action item, an annual identification and prioritization process for Uniform Standards development is currently pending consideration by the Management Committee and the Commission as part of the recommended [Uniform Standards Development Guidelines](#).

The Insurance Compact's Product Standards Committee (PSC) plans to use this process to recommend Uniform Standards development priorities for 2022. Please note all requests for new or amended Uniform Standards that are identified by June 30, 2021 will be considered for inclusion on the recommendation to the Management Committee and Commission for the 2022 prioritization for Uniform Standards. The PSC plans to make the prioritization recommendation by the end of September to coincide with the same process for consideration by the Management Committee and Commission as the annual budget process.

Members and interested parties may request new or amended Uniform Standards by completion of the [Request Form for New Uniform Standards or Changes to Uniform Standards](#). The PSC will continuously accept completed forms with suggestions for new or amended Uniform Standards. Those forms which are submitted by June 30, 2021 will be considered by the PSC in its prioritization recommendation for 2022 to the Management Committee. Completed forms and any documentation to support the request may be submitted to the Compact Office via email: [Comments@insurancecompact.org](mailto:Comments@insurancecompact.org).

During the Uniform Standards 2022 prioritization process, the PSC will also consider pending requests that have not yet been addressed on the [2018 Priority List for Uniform Standards Development](#). There is a [list of the remaining requests](#) available on the Insurance Compact website. The PSC will accept comments on whether and why the remaining items from the 2018 Priority List should continue to be a priority for Uniform Standards development. The PSC will hold at least one public call prior to developing a prioritization recommendation and at least one public call before presenting its recommendation for the annual prioritization of Uniform Standards development to the Management Committee. If you have any questions about this Notice, please contact the Compact Office via email.
