RE: Report of Rulemaking Committee Activities for May 27th Meeting of the Management Committee

The Insurance Compact Rulemaking Committee continues to work on its strategic plan action item of whether and how to accommodate the use of Compact-approved products for groups other than employer groups.

The Rulemaking Committee is set to work on a draft framework to facilitate the use of Compact-approved group products for state-approved groups other than employer groups. The Rulemaking Committee will likely have some regulator-only calls but will have at least one public call and more, if needed, to receive comments on any recommendation before it is forwarded to the Management Committee for their consideration.

Please contact the Oregon Commissioner Andrew Stolfi, Chair of the Insurance Compact Rulemaking Committee, or Karen Schutter, Executive Director, for questions or further information.
