## **IIPRC-L-I-APP**

### **AMENDMENT TO INDIVIDUAL LIFE INSURANCE APPLICATION STANDARDS**

1. Date Adopted:
2. Purpose and Scope of the Amendments: The purpose of these amendments is to revise the individual life insurance Uniform Standards adopted by or before December 31, 2007 in accordance with the 5-year Commission Review of Rules required by § 119 of the Rule for the Adoption, Amendment and Repeal of Rules for the Interstate Insurance Product Regulation Commission. The procedures adopted by the Management Committee in March 2012 for implementing the 5-year review process limit the scope of review under Section 119 to identifying “the need for continuation, repeal or amendment of the rule based primarily on whether circumstances or underlying assumptions have changed since the last time the rule was adopted, amended or reviewed.” See the [Transmittal Memo](#) for a more detailed description of the proposed amendments.
3. Rules Repealed, Amended or Suspended by the Rule: This rule amends the Individual Life Insurance Application Standards adopted by the Interstate Insurance Product Regulation Commission (“IIPRC”) on February 28, 2007 and effective February 12, 2009.

This rule was amended for the purpose of clarifying the Individual Life Insurance Application Standards to specify:

- a. Information about the proposed insured’s place of birth may be requested;
  - b. Requirements for authorizations for electronic instructions and delivery of information that must be included;
  - c. Under what circumstances information about the proposed insured’s military service must be requested;
  - d. Multi-purpose applications are permissible and the conditions that are applicable to such filings;
  - e. Additional acknowledgments may be included in the filing for variable products, entity ownership and certain disclosure and receipt requirements; and
  - f. The required notice regarding an agreement to sell or assign the policy must provide that state law may specify a certain time period restricting such agreement, rather than the two-year limitation in the originally adopted standards.
4. Statutory Authority: Among the primary purposes and powers of the IIPRC is to establish reasonable uniform standards for insurance products covered under the Interstate Insurance Product Regulation Compact (“Compact”), specifically pursuant to

Article I §2, Article IV § 2 and Article VII § 1 of the Compact, as enacted into law by each IIPRC member state.

### **Flesch Methodology**

The following measuring method shall be used in determining the Flesch score:

- (1) For policy forms containing 10,000 words or less of text, the entire form shall be analyzed. For policy forms containing more than 10,000 words, the readability of two, 200-word samples per page may be analyzed instead of the entire form. The sample shall be separated by at least 20 printed lines.
- (2) The number of words and sentences in the text shall be counted and the total number of words divided by the total number of sentences. The figure obtained shall be multiplied by a factor of 1.015.
- (3) The total number of syllables shall be counted and divided by the total number of words. The figure obtained shall be multiplied by a factor of 84.6.
- (4) The sum of the figures computed under (2) and (3) subtracted from 206.835 equals the Flesch reading ease score for the policy form.
- (5) For purposes of (2), (3), and (4), the following procedures shall be used:
  - (a) A contraction, hyphenated word, or numbers and letters, when separated by spaces, shall be counted as one word;
  - (b) A unit of words ending with a period, semicolon, or colon, but excluding headings and captions, shall be counted as a sentence; and
  - (c) A syllable means a unit of spoken language consisting of one or more letters of a word as divided by an accepted dictionary. Where the dictionary shows two or more equally acceptable pronunciations of a word, the pronunciation containing fewer syllables may be used.

## **Appendix B**

### **Fraternal Benefit Societies**

Fraternal Benefit Societies (“fraternals”) are subject to separate fraternal codes in all jurisdictions due to their unique structure, operations and legal obligations. The Drafting Notes included at the ends of the **AGREEMENTS** standards, the new section entitled **ADDITIONAL STANDARDS FOR FRATERNAL BENEFIT SOCIETIES**, and **Appendix B** are included in the standards to allow fraternals to experience the benefits of participating in the single point of filing and review process that the IIPRC offers, without jeopardizing their ability to meet their unique obligations and to operate as required or permitted by law.

By law, a fraternal is defined by five basic elements:

1. one without capital stock;
2. one conducted solely for the benefit of its members and their beneficiaries by providing life, health and annuity benefits and by operating one or more social, educational, charitable, patriotic, or religious purposes for the benefit of members and others;
3. one that is a benevolent and charitable institution and not for profit;
4. one operated on a lodge system that may carry out charitable and other activities; and
5. one that has a representative form of government with a governing body and direct election of its members.

The laws governing fraternals impact the standards in several ways. Fraternals are required by law to issue insurance contracts that incorporate the laws of the Society and the application for membership. Thus, the contract must consist not only of the policy or certificate issued, and the application for insurance, but also the application for membership and the articles and bylaws. Further, the laws governing fraternals require or permit that the articles and bylaws address the structure of lodges, membership requirements, form of governance, grievance procedures, and eligible beneficiaries. Any amendments to the articles or bylaws made after issuance of a certificate must be applied consistently to all members retroactively. However, no amendment shall eliminate or reduce contractual benefits.

By law, fraternals are membership organizations. Because of this, the law refers to the insurance forms issued to members of a fraternal as “certificates” or “certificates of membership and insurance”. Further, due to the membership requirements, fraternal certificates often include a provision stating that the insured and/or owner is a member and that the form that has been issued to evidence coverage is a certificate of membership and insurance. In addition, fraternal certificates may include a Maintenance of Solvency provision setting forth the legal rights and obligations in the case of a fraternal’s financial impairment.
