## **GROUP TERM LIFE INSURANCE POLICY AND CERTIFICATE UNIFORM STANDARDS FOR EMPLOYER GROUPS**

**Scope:** These standards are intended to apply to paper or electronic group term life insurance policies and certificates that are issued to employers, or the trustees of a fund established by an employer, that are permitted in the jurisdiction where the policy is delivered or issued for delivery. The policies may provide benefits to eligible *Employees* and eligible *Dependents* of such *Employees*.

Term life insurance is renewable coverage that does not accumulate cash surrender value. Separate additional standards will apply to group whole life and group adjustable life insurance plans. Consult the Interstate Insurance Product Regulation Commission website to determine when these additional standards are available for filing.

Combination policies for IIPRC-approved group life, group annuity, group disability income and group long term care insurance may be filed with the Interstate Insurance Product Regulation Commission as soon as the standards for these products are available for filing with the Interstate Insurance Product Regulation Commission.

**Mix and Match:** These standards are available to be used in combination with State Product Components as described in Section 110(b) of the Operating Procedure for the Filing and Approval of Product Filings. These standards are available to be used in combination with IIPRC-approved or state-approved group life insurance and annuity forms.

**Self-Certification:** These standards are not available to be filed using the Rule for the Self-Certification of Product Components Filed with the Interstate Insurance Product Regulation Commission.

As used in these standards the following definitions apply:

“Application” means any form used by a policyholder to apply for a group term life insurance policy. The application shall be filed for approval whether or not it is attached to the policy at issue.

“Certificate” means the document which describes the insured’s benefits and rights under the policy, and which includes any riders, endorsements or amendments, notices or other attachments to the certificate.

“Policy” means the group term life insurance policy issued to the policyholder, which includes any riders, endorsements or amendments, notices or other attachments to the policy.

“Policyholder” means the entity to whom the policy is issued.

“Signed or signature” means any symbol or method executed or adopted by a person with the present intention to authenticate a record, and which is on or transmitted by paper, electronic or telephonic media, and which is consistent with applicable law.

- (4) The Statement of Variability shall discuss both the conditions under which each variable item may change as well as alternative content to which the item may change. The Statement of Variability shall present reasonable and realistic ranges for the item that may change. Any change to a range requires a re-filing for prior approval.

  - (i) When the policy is changed by a rider, endorsement or amendment;
  - (ii) When a class of eligible persons is added to or deleted from the policy for any reason, including corporate restructuring, acquisitions, spin-off or similar situations;

  - (a) The provision may state that the insurance company may retrospectively reduce the policyholder's *Premium* for a specified policy period based upon policy experience during such period. The reduction, if any, will be based on the insurance company's retrospective experience rating formula which shall be based upon an objective formula which is set forth explicitly in writing, is actuarially sound, uniformly applied and is approved by the insurance company's board of directors. If a reduction is applicable, a refund of *Premium* will be paid to the policyholder in a manner determined by the insurance company.   - (b) The provision may state that the insurance company may retrospectively increase the policyholder's *Premium* for a specified policy period to offset any *Deficit* for such policy period, plus *Deficits* from specified prior policy periods, if any. Any such increase shall not exceed a specified percentage (such as 1%) of earned premiums during such policy period(s). If an increase in *Premium* is applicable, the policyholder shall pay to the insurance company the amount of the increase within a specified period of time not less than 31 days after the insurance company sends written notice of the amount due to the policyholder. If the policyholder has more than one policy with the insurance company, one or more of such policies may be treated as one policy to determine the retrospective experience rating increase, if any.
    - (i) As used in the provision:
      - (A) "Deficit" means the excess of *Charges*, as determined by the insurance company, against the polic(ies) over earned *Premiums*.
      - (B) "Charges" may include items such as claims paid from the insurance company's funds, plus interest; open and unreported claim reserves; approved claim reserves; state plan assessments; taxes; excess risk pool charges; expenses; cash flow charges; risk charges.

If portability coverage is provided, the provisions describing such coverage may be included in the policy but shall be included in the certificate. The provisions may also be added to such policy or certificate by rider, endorsement or amendment. The provisions shall describe the eligibility requirements for such portability, what life insurance amounts are eligible for portability, the duration of the portability coverage and the terms and conditions for electing portability.
  - (a) The provision shall state whether additional benefits, such as accidental death benefits, accidental dismemberment benefits, accidental death and dismemberment benefits, waiver of premium and accelerated death benefits, as applicable, may be ported in addition to the *Covered Person's* life insurance amount.
  - (b) If an insurance company will include additional benefits, the type of benefits to be included shall be specified, and where the standards say "exclusive of additional benefits", the insurance company shall substitute "inclusive of additional benefits".
  - (c) The provisions shall specify if portability coverage will be provided under the same group policy in a separate class or if coverage will be provided under another group policy that has been issued specifically for, and limited to, providing portability coverage for *Employees* and their *Dependents* whose coverage ends under an employer's plan;
  - (d) The provisions shall state that the portability coverage is available if the certificate is in effect at the time of the event giving rise to a person's eligibility to port coverage, and that portability coverage shall only be available for amounts of group term life insurance for which no application to convert has been made;
  - (e) The provisions shall specify the maximum amount of group term life insurance that may be available under the portability option, and the amount ported shall not exceed the life insurance amount that was provided under the certificate before the coverage ended. The provisions may also allow an *Employee* to request additional life insurance amounts, but such amounts shall be subject to evidence of insurability. However, such additional amounts may only be requested at the time of portability or later when the *Employee* has a life-changing event, such as a change in marital status, adoption or birth of a child, legal guardianship or court order, etc.
  - (f) If portability coverage is to be provided under another group policy that has been issued specifically for, and limited to, portability coverage, the provisions shall state that evidence of insurability shall not be required if election for portability coverage is made within a specified period of time (such as at least 31 days) after insurance ends. If portability coverage is to be provided under the same group policy, the provisions may state that evidence of insurability shall be required for such coverage. If evidence of insurability is not required, the provisions may also allow an insurance company to require evidence of insurability if the *Employee* wants a preferred class premium;

  - (ii) The new certificate will describe the benefits provided;
  - (iii) The new certificate shall state that the new benefits may not be the same as those that end under the policyholder's group policy; and
  - (iv) The new certificate shall include a conversion provision that provides for the *Employee's* and *Dependent's* right to convert if portability coverage ends at any time;
- (i) If portability coverage is to be provided under the same group policy in a separate class, the certificate shall include a conversion provision that provides for the *Employee's* and *Dependent's* right to convert if portability coverage ends at any time;
- (j) The application for portability coverage may include a schedule of *Premiums* and payment instructions, or such schedule and instructions will be included in the application kit; and
- (k) The provision shall state that if a *Covered Person* dies within a specified period of time (such as at least 31 days) of the date insurance ends under the certificate, and an application for portability coverage is not received by the insurance company during such time, the insurance company shall pay the life insurance benefit in accordance with the conversion provision. If an application for portability coverage is received by the insurance company during such period, the insurance company shall pay the amount of life insurance, exclusive of additional benefits, that the *Covered Person* was entitled to convert under the terms of the certificate. Any premiums paid for the portability coverage shall be refunded. In no event shall the insurance company be required to pay the death benefit under the conversion, portability coverage and the continuation provisions of the certificate.

**C. CONVERSION**

- (1) The policy shall include conversion provisions. The provisions may be included in the policy but shall be included in the certificate. - (d) ***Right to Convert Employee Insurance.*** The provisions shall describe the situations which would entitle an *Employee* to convert, as follows:

Written notice shall be given to the *Employee* by the policyholder or insurance company administering the coverage. The notice shall be mailed to the *Employee’s* last known address and shall constitute notice of the right to convert;
- (iv) If portability coverage is provided in the certificate and evidence of insurability is required to port the amount of *Employee* life insurance that ends under the certificate, the provisions shall state that if the *Employee’s* initial, timely application for such portability coverage is rejected, the *Employee* shall be given additional written notice of a conversion right by the insurance company, and that right to convert will expire 31 days after the date such notice was given;

If application and *Premium* payment has been made for the conversion policy, any premiums paid for the conversion policy shall be refunded. In no event shall the insurance company be liable to pay a death benefit under both the group policy and the conversion policy;
- (x) If the certificate provides for portability coverage, the provisions shall state that if application and *Premium* payment is made for portability coverage and the *Employee* dies during the conversion period, the insurance company shall pay the amount of life insurance, exclusive of additional benefits, that the *Employee* was entitled to convert under the terms of the certificate. Any premiums paid for portability coverage shall be refunded. In no event shall the insurance company be liable to pay a death benefit for both the coverage that the *Employee* was entitled to convert and the coverage that the *Employee* was entitled to port, if any, whether such ported coverage was to be provided under the same or a different group policy;

- (f) ***Right to Convert Dependent Insurance.*** The provisions shall describe the situations which would allow the conversion of *Dependent's* insurance, as follows:

In no event shall the insurance company be liable to pay a death benefit for both the *Dependent* coverage that was entitled to be converted and the *Dependent* coverage that was ported, whether such ported coverage was to be provided under the same or a different group policy; and
  - (D) If the portability application is not approved, and the *Dependent* dies during the conversion period, the insurance company shall pay the amount of *Dependent* life insurance, exclusive of additional benefits, that was entitled to be converted under the certificate. ## **Appendix A Flesch Methodology**

The following measuring method shall be used in determining the Flesch score:

- (1) For forms containing 10,000 words or less of text, the entire form shall be analyzed. For forms containing more than 10,000 words, the readability of two, 200-word samples per page may be analyzed instead of the entire form. The sample shall be separated by at least 20 printed lines.
- (2) The number of words and sentences in the text shall be counted and the total number of words divided by the total number of sentences. The figure obtained shall be multiplied by a factor of 1.015.
- (3) The total number of syllables shall be counted and divided by the total number of words. The figure obtained shall be multiplied by a factor of 84.6.
- (4) The sum of the figures computed under (2) and (3) subtracted from 206.835 equals the Flesch reading ease score for the policy form.
- (5) For purposes of (2), (3), and (4), the following procedures shall be used:
  - (a) A contraction, hyphenated word, or numbers and letters, when separated by spaces, shall be counted as one word;
  - (b) A unit of words ending with a period, semicolon, or colon, but excluding headings and captions, shall be counted as a sentence; and
  - (c) A syllable means a unit of spoken language consisting of one or more letters of a word as divided by an accepted dictionary. Where the dictionary shows two or more equally acceptable pronunciations of a word, the pronunciation containing fewer syllables may be used.
- (6) The term "text" as used in this section shall include all printed matter except the following:
  - (a) The name and address of the insurance company; the name, number or title of the policy or certificate; the table of contents or index; captions and sub-captions; specifications pages, schedules or tables; and;
  - (b) Any language which is drafted to conform to the requirements of any federal law or regulation; any language required by any collectively bargained agreement; any medical terminology; any words which are defined; and any language required by law or regulation; provided, however, the insurance company identifies the language or terminology excepted by this paragraph and certifies, in writing, that the language or terminology is entitled to be excepted by this paragraph.
- (7) At the option of the insurance company, riders, endorsements, amendments, applications and other forms made a part of the policy or certificate may be scored as separate forms or as part of the policy or certificate with which they may be used.
